DIVA UTOPIA

The New Hi-Fi

The Diva Utopia range brings together the best of Focal acoustics and Naim electronics in all-in-one solutions with a unique design. These Hi-Fi wireless speakers integrate powerful amplifiers, provide access to numerous streaming services, offer extensive connectivity, and are easily controlled via smartphone, remote control, or voice assistants. The sound quality, elevated by the Ultra Wideband technology, propels Hi-Fi into a new dimension.

MU-SO HEKLA

Immersive sound for your living room

Mu-so Hekla redefines the home cinema experience by integrating advanced acoustic and electronic architecture into a remarkably compact format. The result? Breathtaking performance delivered by an immersive all-in-one system with a refined, high-end design. Effortlessly placed on a piece of furniture, it unleashes the power of Iceland's Hekla volcano through Dolby Atmos® technology: the bass is deep, the dialogue exceptionally clear, and the soundstage striking - reaching into every corner of your living room. More than just an audio system, it's total immersion in your films, video games or music playlists - with the ease of installation and use of a compact all-in-one solution.

UTOPIA III EVO

The legend continues

Among the world's finest loudspeakers, the Utopia models embody Focal excellence. They are our most accomplished concept, combining patented innovations, unrivalled performance and a style that turns every room into an acoustic sculpture. The embodiment of Focal excellence, the Utopia III Evo line is distinguished by its incredible silhouette, cutting-edge, exclusive technology, finishes inspired by the luxury car industry and, of course, the unrivalled listening experience they deliver. They are also home to the best components of their generation. Utopia is an icon, and still streets ahead of the rest.
