ATELIER IN WALL

Canton Atelier In-Wall speakers are the ideal solution for those who wish to enjoy true hi-fi sound whilst maintaining maximum visual discretion. Thanks to their ultra-slim design, with a depth of less than 10 cm, these models blend almost completely into the wall, creating an elegant and minimalist installation. The In-Wall series combines advanced acoustic technology with an invisible form, delivering sound with impressive dynamics and clarity – ideal for stereo systems, home cinema setups and multi-room installations alike.
